Applications of the Leader's Voice

The Leader's Voice has the ability to deliver unique insight and powerful learning across all levels of an organisation.

While incorporating the same core concepts, each programme is tailored to the specific group being targeted. As a result each programme, whether that for Senior Leaders or Graduate Recruits, can stand on its own or be part of an integrated development programme. What's more, the intervention can be used for both individual and organisation development, targeting individuals, specific groups or organisation units.

Examples of the application and focus of the Leader's Voice include:

Level	Focus
Senior Leaders	Individual development
Senior Leadership Teams	Business & strategic team development
High Potential Development	Accelerated individual & group development
Mid Level Leaders	Leadership & management development
Graduate Recruits	Early individual development
Business & Project Teams	Team development
Functional Teams (eg Sales & Marketing departments)	Functional staff development

Internationally deliverable, all the programmes can be run internally using our mobile recording suite or at one of several world class recording studios including Abbey Road in London and Capitol Studios in Los Angeles.
